The Adventure Camp will be an alternative program for campers, ages 14 - 17, concurrent with Senior Week. It will provide the excitement of a backpacking trip, whitewater canoeing, rock climbing, rappelling and hiking. These activities are used to show participants that diabetes should never stop one from accomplishing what they set out to achieve. Completing the Adventure Camp will give participants experience with their diabetes in challenging conditions while under medical supervision. While fun remains the main purpose of the activities, many of the activities are strenuous and Adventure campers will be encouraged to rise to the challenge.

Our Summer Family Camp provides the opportunity for families to enjoy leisure time together, receive information about the care of diabetes and develop friendships with others living with this challenge. The child living with diabetes is accompanied by his/her parent/guardian. (Siblings may also attend.) Fun activities, education in the care of diabetes, fellowship and encouragement are offered to those in attendance.

Out-of-state applications will be considered after April 15th.
